Savings of up to 68%!

The craziest of offers for the coolest of the Scopes.

Supercharged 3 Series Mixed Domain Oscilloscope

There is only one oscilloscope that is not only “mixed signals” but also “mixed domain”: the **3 Series MDO**.

In fact it features not only a 11.6-inch HD (1920x1080) capacitive touch display, up to 4 inputs with optional 16 digital channels but also a real built-in spectrum analyzer (in 1 GHz or 3 GHz versions).

For a limited time, if you purchase a qualifying 3 Series MDO you will receive:

FREE bandwidth upgrade to next level higher bandwidth
PLUS:

THREE FREE Options:

- **3-BND** - Application bundle with serial decode buses such as I2C, SPI, CAN, LIN & USB plus automated power analysis
- **3-MSO** - 16 digital channels; free up your analogue channels and see more signals by upgrading to mixed signal capability
- **3-AFG** - Arbitrary function generator with 13 predefined waveforms and arbitrary waveform generation

And if you are a customer qualified as **EDUCATIONAL**, you can also receive our special **25% discount!**

Our **new 3 Series MDO** oscilloscopes offer the largest, highest-resolution touch displays in their class. So, you can see even more of your signal. Plus, much more.
